P.L.CREW

Professional Learning Community

Teachers matter more to student achievement than any other aspect of schooling.

To build expert, capable and resilient teachers and school leaders, P.L.CREW offers a purpose-built and fully supported online Professional Learning Community where school teams can collaborate in-house, with peers from across Australia and with education experts.

Built by educators to support educators, **P.L.CREW** provides the new generation of teachers, school leaders - and those aspiring - a supportive and self-driven means of collaborating on student and staff success.

The **P.L.CREW** platform has three learning modes– Self-paced courses, live and recorded ZOOM gigs and social, group interaction including the sharing of resources, expertise and solutions to problems of practice.

We have a robust focus on general staff wellbeing and resilience, and a dynamic focus on teaching and learning. Members in their early career will be able to gather classroom-ready resources, materials that support the continuity of their learning, and be a part of a professional learning community that facilitates positive, and supportive collaboration with their peers across the state, in addition to their immediate colleagues.

Members aspiring to achieve a leadership position in the future will have access to the tools to develop those operational, relational, strategic and systematic skills that they need to be an empowering and influential leader.

Experienced Leaders can maintain currency and build on their expertise with a focus on influencing, strategic thinking, process improvement and driving outcomes.
